- Class president
- Monitor of Programming Logic

UDEMY

### Web Development Bootcamp

- Front-end (HTML, CSS, Bootstrap, JS, jQuery, ReactJS)
- Familiarized with SASS, Node.js and Express

## Projects

### Feel Fine 2023

Finalist project on the Porto Digital Residency Program. The goal of this app is to make emotional education possible and affordable to children from ages 5–8.

### Verr Med 2023

A community outreach project to help those struggling with drug allergies. On this web app, the user can search for a medicine and check if it contains a substance that's allergenic for them. The app calls an API to search the Anvisa database and provide a reliable result.
